Hhhhhhh Numb. 3933.

The Daily Courant.

Wednesday, June 2. 1714.

From the Paris Gazette, dated June 9.

Madrid, May 21.

THE 16th of this Month Don Pedro de Zuniga, Lieutenant-General of his Majesty's Armies, married the only Daughter of the Duke of Naxera Heiress of that Dutchy. Father Rubio a Jesuite, Confessor of the late Queen, formerly Provincial of his Order, died some Days ago; and Father Francisco Blanco a Dominican, who confessed the Queen in her last Illness, is likewise dead. The last Letters from the Camp before Barcelona advise, that the Marquis de Mari's Squadron returned the 7th from Toulon, with Transports laden with Ammunition, Cannon for Battery, Mortars, and Provisions, which were landing with all possible Diligence. The Marquis de Thouy Captain-General, who had been at the Camp to assist at a Council of War, was gone back to rejoyn his Troops, which were encamped in the Neighbourhood of Cervera.

Girona, May 22. Letters from the Camp before Barcelona of the 19th of this Month relate, that a Resolution being taken to attack the Fort of Capuchins, Trenches were opened against it the Night between the 14th and 15th, and at the same time Men were set to work upon a Battery of 10 Guns of 24 Pound Ball, which began to fire the 16th. A Breach being made, that Post was attacked on the Right and Left, under the Command of the Count d' Esterre Major-General; and was carried in a very little time. Part of the Garrison, after having made two Discharges, retired to the Monastry of Cordeliers called Jesus, with which they had a Communication; the rest were put to the Sword, except 30 who were made Prisoners. In this Attack were killed the Baron de Torsy Captain in the Regiment of Walloon Guards and Brigadier, an Officer of the Spanish Guards, and 20 Soldiers: M. de la Motte Lieutenant-Collonel of the French Regiment de la Couronne received a Contusion; and 4 Officers of the Guards with 30 Soldiers were wounded. The Besiegers fortify themselves in that Post, which is a large Monastry capable of holding an hundred Monks, and is but 250 Toises distant from the Town. Batteries are erecting there of Mortars and Cannon for firing burning Bullets, and another Battery of Mortars will be erected within Reach of Montjouy, to bombard that Castle likewise, where several Families of Barcelona have taken Refuge. A Convoy of 14 or 15 barks laden with Provisions, which came from Majorca and had Order to run all Hazards to enter the Port, have been taken by the Fleet. A Captain of a Spanish Ship of War, performed on this Occasion an Action of extraordinary Intrepidity. Observing that one of those Barks held on its Course towards the Port, without being stopt by the Cannon-shot from the Fleet, he leaped into a Shallop, followed by 3 or 4 Men, went and boarded that Bark, took and brought her off from under the fire of Musquets from the Mole of Barcelona. 'Tis reported that two Companies of Walloons have been taken near Montserrat by the Volunteers. We have received Advice, that Don Féliciano de Bracamonte, conducting to Manresa a Convoy of Provisions, was attacked in the Country of Vallés by the Chevalier del Poual; but after a pretty hard Fight, he defeated him, killing 200 of his Men and dispersing the rest; which done he continued his March. One Meraga, who having yielded up Castel-Ciudad, had promised to retire to his own House and live quiet there, on Condition he might retain the Title of Noble which the Emperour had granted him, though he was but a Peasant, had retaken Arms and had drawn together about 500 Rebels, with Design to surprise Castel-Ciudad. But Don Joseph Vallejo being informed of it, marched suddenly and met them: They immediately threw down their Arms and dispersed themselves, Meraga escaping with two more only in his Company. Don Joseph Vallejo pursued the Fugitives, and among others took the Wife, Daughter, and Brother-in-Law of Meraga. The 21st *Te Deum* was sung in the Cathedral of Girona, for the Peace concluded with the Emperour.

From the Paris Letter, dated June 9.

Paris, June 9. We see here a Letter from the Emperour and Empress, written to the Barceloners the 28th of March last, and printed in the Catalonian Language at Barcelona and at Majorca; by which his Imperial Majesty signifies to them the Concern he felt for having abandoned them to act as they could for themselves, which he had not done but only because his Allies had first abandoned him, and thereby put him under a Necessity of making his Peace with France; but that as he still preserves his lawful Rights to the Crown of Spain, they might depend up it he would give them all possible Succour in the present Juncture. 'Tis very likely this Letter was forged by the Barceloners. 'Tis advised from Calais, that English Soldiers disbanded out of the Queen's Service, arrive there frequently, and that they take their Way towards the Meuse, which makes it believed that they go to list themselves into the Service of the King of Prussia. We learn by Letters from Germany, that the Emperour has written a very obliging Letter to the Chevalier de St. George, on the Account that has been given him of the great Qualities of that Prince by divers German Lords who have visited him. We are assured, that the King of Spain has written to the King his Grandfather, to desire him to regulate as he thinks fit the Difficulties which still obstruct the Conclusion of Peace between his Catholick Majesty and Holland, and also between his said Majesty and Portugal. Upon the Consent of his Catholick Majesty to all that the King should think fit to order for the Siege of Barcelona, his most Christian Majesty has given Order for 70 Battallions of the Troops quartered in the Southern Provinces of France to march to Catalonia; and has nominated the following Generals to command the Siege. Viz. The Marshal Duke of Berwick Generalissimo. For Lieutenant-Generals, M. de Puy-Vauban Ingenier in Chief and Director of the Siege, M. de Silly, Geoffreville, Asfeld, and Dillon. For Major-Generals, M. de Mortemart, Guerchois, Cadrieux, Broglio, Courtaine, and Bourk. 'Tis said M. du Casse desires Leave to quit the Service, and that M. d' Aligre will in that Case command in his Room till the King has named another General to command the Squadron.

London, June 2.
